@Alex Think we could have the GitLab build pipeline trigger the release pipeline?

Alex Rodriguez 10:37 AM
We could definitely do that. It'd be a little more complicated since we only want builds for tags to trigger the release pipeline but it's doable.

John Vu 10:40 AM
Great, I'll make a Jira ticket for it. Time for standup @all!

We're using Splunk to monitor the logging pointes as well as to trace and analyze the data. Here is a sample dashboard.

I like the plan @Ayanna Moore!
